

IVAP PROFILING

IVAP was established in 2010 to gather information on the humanitarian needs of DPs residing in Khyber Pakhtunwan (KP) province. IVAP conducts a multi-cluster assessment based on door-to-door family-level interviews. IVAP aims to guide humanitarian response that is targeted towards the needs of the most vulnerable.

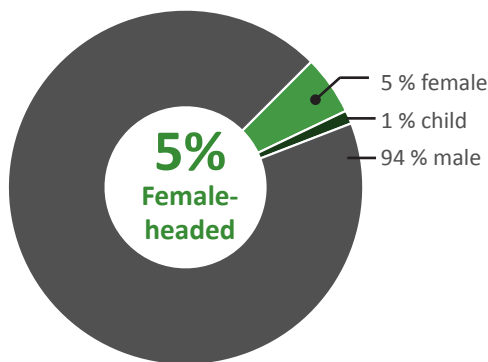

This IVAP Factsheet is based on the current IVAP database. Information was collected on 19,751 families from Khyber Agency between June and December 2013; the remaining information has been collected since August 2014.

For more information and to access the IVAP live database go to www.ivap.org.pk

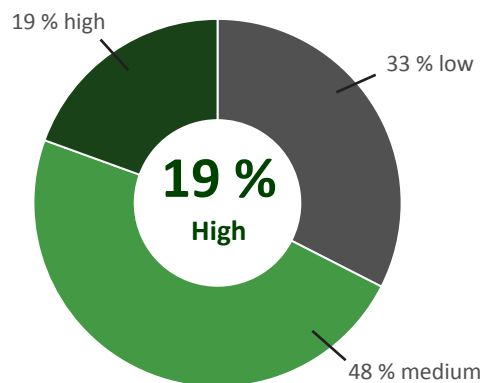

KEY FIGURES

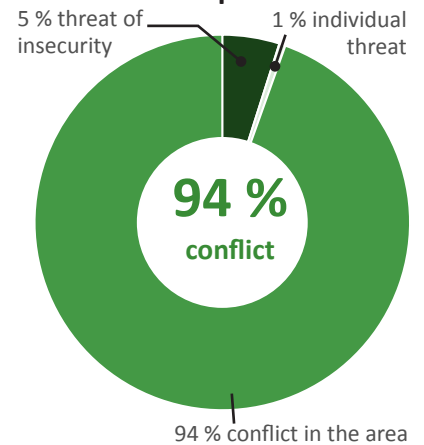

Family head

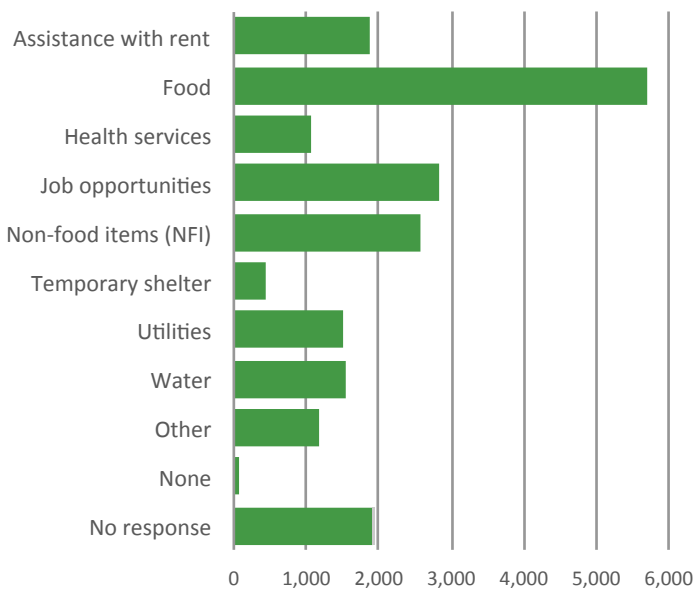

Dependency ratio of families

Reason for displacement

Priority need identified by respondents

Profiled families by host district
